

TOWN OF CARVER

CONSTRUCTION NOTIFICATION MONTELLO STREET AT ROUTE 58 RE-ALIGNMENT CARVER, MA

September 28, 2021

The Town of Carver, MA will be commencing work on the project for the Re-Alignment of Montello Street at Route 58 in Carver, MA

The estimated construction start date is October 11, 2021, with early operations of Tree cutting anticipated at that time.

In the coming weeks, there may be preparatory work performed in the form of construction layout and erosion controls.

The outline of the work includes, but is not limited to, roadway construction and widening, roadway and off-road drainage construction, replacement of the existing drainage culvert on Montello Street, water line construction, gas line construction, asphalt paving, curbing, guardrails, wetland replication, loam and seed restoration, traffic signals on Route 58, signs, and pavement striping.

The project Construction Plans for the proposed work and the proposed detour plan can be found on the Town of Carver website at www.carverma.gov.

As part of a comprehensive Traffic Control Plan, certain phases of roadway and drainage culvert work on Montello Street will require a Detour in order to remove and replace the drainage culvert across the roadway. The timing of the proposed detour will be noticed prior to the work being done and a notice will be posted on the Town website at www.carverma.gov.

The Water Line construction will require a connection to the existing Water Line on Route 58. This connection may interrupt existing services. Timely notice will be given to affected consumers of the Water Line.

The estimated substantial completion date of the project is June 15, 2022.

Please feel free to contact the **Town Operations and Maintenance Office (Public Works)** if you have any questions or concerns at **508-866-3425**.

Future construction notices will be posted on the Town of Carver website at www.carverma.gov.
